Pullropes / Anchor back rope

These ropes are used for tensioning the SmartUnits by pulling back the anchor. The pullropes are made in 8 strands rope with thimble in one end and a proper spliced soft eye in the other end.

The end with the thimble connects to the back of the anchor with a shackle, a few meters above we recommend attaching a small buoy (8-40 litres) to the pullrope. In the surface a buoy between 30 and 140 litres are attached to the pullrope. The soft eye in the surface are easy to attach to the boats pulpit before tensioning. The length and dimensions of the pullrope are set

Mooring buoys

Model/type	Volume liter	Diameter mm	Height mm
Small Mooring Buoy	800	1 150	1 156
Medium Mooring Buoy	1 050	1 150	1 396
Large Mooring Buoy	1 300	1 150	1 640
Small 90 l Buoy	90	550	500

Skin:

- Rotational moulded, polyethylene (LLDPE)
- UV-Stabilized
- Wall thickness: 8 mm

Foam:

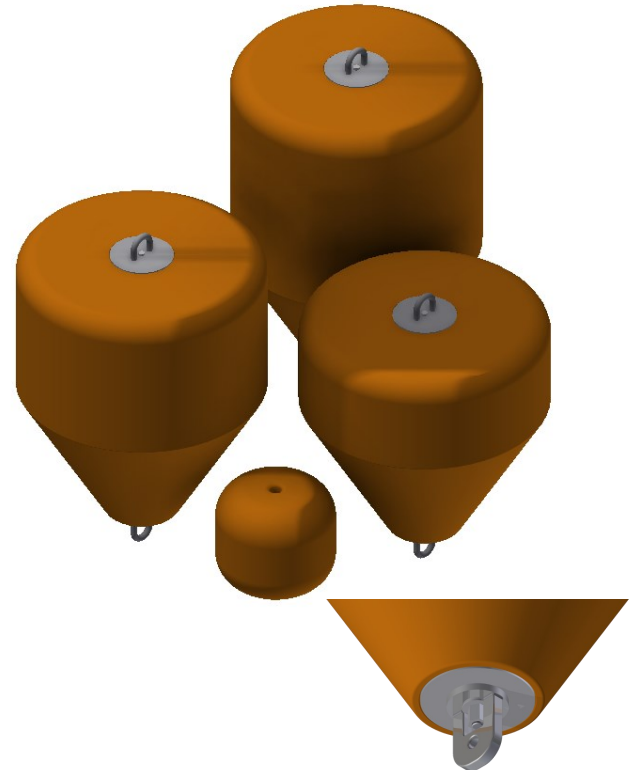

- PU, polyurethane
- Density: 35 kg/m³

Mooring Buoy characteristics:

- Steel rod 30 mm
- All steel hot dipped galvanized
- 2 different eye options

Options riddled hole for small 90 l buoy :

- Ø 40 mm
- Ø 50 mm
- Ø 90 mm

- contact information

Dimensions are guiding and variances may appear.

HDG=Hot dipped galvanized
